The START programs offer a residential alternative to hospitalization for voluntary adults who are experiencing a severe mental health crisis which cannot be managed on an outpatient basis and which may also include substance use.

- The pleasantly homelike environment at each program is safe, warm and supportive, providing just the right amount of structure for recovery.
- The programs are staffed 24 hours a day by mental health professionals.
- The average length of stay is less than ten days, so residents’ discharge plans begin at admission, with staff assisting with linkages to resources in the community.
- Programs accept adult men and women with Medi-Cal, MediCal with Medicare, VA, and Kaiser Insurance as well as people without insurance - No one is denied services due to inability to pay.

**Resident Responsibilities**

- Remain in the facility for the first 72 hours. During stay resident will only leave facility for treatment related issues and upon pass request/approval
- Actively participate in setting and achieving your treatment goals
- Participate in all Community Meetings, Individual and Group Therapy, and recreation opportunities
- Contribute to the care of the house, which includes participating in meal preparation and cleaning tasks

**Staff Responsibilities**

- Provide a safe therapeutic environment
- Provide psychiatric assessment and medication stabilization
- Provide referrals to outpatient therapy and medication follow up services
- Provide social service resources information, including housing and shelter referrals when applicable
- Empower and assist residents in developing and achieving recovery goals
